

ALPHALAP
AL SERIES

ALPHALAP combines uniform thickness and maximum strength. Constructed with exceptional quality, **ALPHALAP** fabric consistently produces a uniform finish.

APPLICATION & BENEFITS

- Recommended for final polishes on acrylics, Lucites, Plexiglas, softer crystals and metallurgical samples.
- Commonly used with aluminum oxide slurry or similar polishing powder (not diamond-based).

PHYSICAL CHARACTERISTICS

PHYSICAL PROPERTIES & AVAILABILITY			
MATERIAL	RAYON ON COTTON		COLOR
Size	Approx. Thickness	Thickness w/ PSA	GREEN
Pads/Discs	6" - 36"	.045"	.050"
Sheets	45" x 70"		
Yardage	46" Width		
Pressure Sensitive Adhesive	When PSA is specified (pressure-sensitive adhesive), a polyester interface with down side adhesive protected by a removable paper, is applied. The bond to the lapping plate remains firm with various polishing vehicles including water, oil, alcohol, and most commonly used slurries, yet removes cleanly when changed.
